Date: _____ Signature: _____ Official Title: _____

This statement must be signed by Insured if an individual, by a partner if a partnership, or by an officer if a corporation.

*Note 1:- Generally speaking a Standing Charge is an item or expense which in the event of a total interruption would not be eliminated, or in the event of a partial interruption would not be reduced in proportion to the reduced earnings. Listed from 1 to 21 are typical standing charges, others may be added as required. If your accounting methods make use of other terms to define standing charges it is quite permissible to list them in that way. If you are insuring on an all Standing Charges basis you may list the total of all expenses and deduct the total of those expenses which are not standing charges to arrive at the actual values.

**Note 2:- It is important to keep in mind that an interruption to the business arising out of the insured perils could occur towards the end of the next annual term and it is, therefore, necessary to anticipate at least two years ahead when calculating the amount of insurance required.
