

After years and years of increases in my premiums and just renewing my insurance over and over, this year I decided to find out what else was available. I shopped the market place and found that Signature Risk was growing market share at a fast rate, so I gave them a call.

I am so glad I did, the renewal process has never been so easy. As promised, Signature delivered superior coverage (tailored to my operation) and a lower premium price...even with the better coverage, the premium made me wonder what I've been doing for the past 10 years. On top of that, Signature's terms were delivered on time (no games) by professionals who truly understand my business.

So, if you want great coverage with a lower premium and you want to work with an insurance company that truly understands the Canadian Golf business then I highly recommend you give Signature Risk a call.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerard Waslen". The signature is fluid and cursive.

Gerard Waslen
