

**THE TORONTO LAWN TENNIS CLUB**

*We started working with Anna Armstrong and Bill Godkin of CE Safety about a year ago. They performed a safety audit of our entire facility, inside and out, and brought several issues to our attention that were not even on our radar. They created a thorough training manual that was specific to each of our departments, and in compliance with current laws. Bill visited the Club on several occasions to train our employees on WHMIS, AODA, Worker/Supervisor Safety Awareness and Workplace Violence, and assisted the Joint Health and Safety Committee with inspections and making recommendations. They even updated our enormous MSDS master binder. Bill is a wealth of knowledge in this industry and a really genuine guy who loves to make people laugh, which makes working with him far from boring.*

*In addition to all of these things, Bill has been at our beckon call since day one to answer any questions or concerns - no matter how big or small. CE Safety have great connections and have been able to refer us to all the appropriate people when needed - training for working at heights and fall arrest, ladder training, and when we needed to purchase new scaffold equipment. Anna's past experience working in Food and Beverage gave her an excellent understanding of our needs in the Kitchen.*

*Over the past year our JHSC has accomplished so much. The training we received from CE Safety has given us the knowledge and tools required to carry on with those efforts. CE Safety has really changed our workplace for the better and we can't thank them enough.*

*Jessica Litt, Chair of Health and Safety, and Larry Montpetit, General Manager and COO of The Toronto Lawn Tennis Club*

Kind Regards,

*Jessica Litt  
Member Services Manager*
