Signature Risk Announces Updated Policy Fee Effective January 1, 2026

Toronto, ON – Signature Risk Partners Inc. announced today that the Policy Fee for all new and renewal policies will increase from \$289 to \$305, effective January 1, 2026.

This modest adjustment reflects the rising costs of operations and software licenses required to support the company’s ongoing investment in advanced technology, risk management tools, and client service infrastructure.

“Signature Risk remains committed to delivering exceptional service and underwriting expertise. This update ensures we can continue to invest in technology and systems that bring efficiency, security, and speed to our broker partners and insured clients,” said James Grant, President & CEO.

The updated policy fee will apply to all business bound or renewed on or after January 1, 2026, across Signature Risk’s program lines, including Golf, Craft Brew, Wine, and RV Park industries.

Signature Risk Partners Inc. appreciates the continued support of its broker partners and clients as it builds a more connected and technology-driven insurance experience.
