

## FOR IMMEDIATE RELEASE

### **Signature Risk Partners Inc. Launches Innovative AI-Powered Weather Alert Tool to Protect Commercial Insurance Customers**

**Toronto, Canada – April 22, 2025** – Signature Risk Partners Inc., a leading provider of specialized commercial insurance solutions, is thrilled to announce the launch of its groundbreaking Weather Alert Tool, powered by a custom-built AI Agent. This innovative service monitors Environment Canada weather alerts in real time and delivers instant notifications to Signature’s commercial insurance customers, empowering them to prepare for severe weather events and minimize potential damage.

Designed to enhance risk management for Signatures customers across Canada, the Weather Alert Tool leverages advanced artificial intelligence to analyze Environment Canada’s weather data, including warnings for storms, floods, wildfires, and other extreme conditions. By providing timely and precise alerts, the tool enables clients—such as golf and country clubs, wineries, campgrounds, and city, social, and athletic clubs—to take proactive measures, safeguarding their operations, assets, and employees.

“Our new Weather Alert Tool reflects Signature Risk’s commitment to delivering cutting-edge solutions that help our clients stay ahead of risks,” said James Grant, President & CEO of Signature Risk Partners Inc. “With severe weather events becoming more frequent, our AI-powered service ensures businesses receive critical information in real time, allowing them to act swiftly and protect what matters most.”

Key features of the Signature Weather Alert Tool include:

- **Real-Time Monitoring:** Continuous tracking of Environment Canada’s weather alerts, ensuring businesses are informed the moment a warning is issued.
- **Customized Notifications:** Tailored alerts delivered via email or SMS, specific to each client’s location and operational needs.
- **Actionable Insights:** Practical guidance accompanying alerts to help clients implement risk mitigation strategies, such as securing property or adjusting operations.

The Signature Weather Alert Tool is available to all Signature Risk commercial insurance customers at no additional cost, reinforcing the company's dedication to adding value through innovation. By combining AI technology with its deep expertise in specialty insurance, Signature Risk continues to set the standard for proactive risk management in Canada.
